

COASTAL GUIDE – OVERVIEW

Award Definition:

The holder of this award has demonstrated the ability to plan and conduct guided kayaking activities in sit on top kayaks in coastal conditions defined as:

- Estuaries, embayment's and areas enclosed or partially enclosed by fringing reef or islands
- Areas of exposed coastline that are simple, not involving overfalls, tidal races, difficult landings or open crossings may be included
- Distances of up to 1 nautical mile offshore
- Conditions below Fresh (17 knots) as defined by the Beaufort Scale and used by the Bureau of Meteorology

Skill Component:

- Prepare appropriate craft and equipment with consideration for safety, sun sense and hypothermia
- Launch and land in surf to 0.5 m
 - Demonstrate: -
 - Surf
 - Back surf
- Paddle the craft efficiently in moderate coastal conditions: -
 - Strokes: -
 - Forward and reverse paddle
 - Forward and reverse sweeps
 - Draw strokes (feathered and sculling)
 - Stern Rudder
 - Stopping
 - Support using back of blade
- Perform rescues in moderate conditions at sea: -
 - Buddy rescue
 - Flip and support
 - Self-rescue
 - Paddle float rescue
 - Flip and climb
- Competently perform a tow: -
 - Single tow
 - In line tow
 - V tow
 - Contact tow
 - Towing to hold position
- Coordinate roles and communication within group
- Secure craft for transport, secure equipment to craft
- Capsize and recover in surf to 0.5 m

Knowledge Component:

- Have a broad understanding of the advantages and limitations of sit on top craft
- Select and advise novice paddlers on appropriate equipment and clothing with consideration of sun sense and hypothermia
- Plan and navigate a coastal sit on top activity
- Store, operate and maintain appropriate safety and communication equipment
- Interpret weather for a marine environment
- Minimal environmental impact
- Knowledge and maintenance of craft
- Knowledge of Rules and Sea

COASTAL GUIDE – OVERVIEW

- AC's role, membership structure, your rights and responsibilities
- Safety Guidelines, Minimal Impact Guidelines, Risk Management Policy, Incident Reporting requirements
- Hazard identification and risk management program for a sea trip (including expeditions)
- Licensing, permits and other legal and behavioural laws and requirements
- Understanding of selection of launching and landing sites.
- Maintaining log books

Experience component:

- *Provide a verified log showing over the previous two years at least: -*
 - Six coastal trips of a minimum of three hours duration
 - Three guided coastal activities of at least three hours duration as an observer under training or as an assistant Guide
 - Two guided sea activities of at least 3 hours duration as lead guide under observation of a qualified guide
- Current First Aid and CPR qualifications

Communication component:

- Establish and maintain an effective communication system within a group of novices
- Brief a group of novices paddlers to participate in activity, must include but not limited to: -
 - purpose and duration of trip
 - expected conditions
 - correct posture
 - setting up the craft
 - launching and landing in surf
 - strokes as required
 - group movement requirements
 - actions in the event of an emergency
 - On water signals
- Deliver directions in a clear and concise manner
- Debrief

Leadership component:

- Manage the launching and landing of a group of novice paddlers: -
 - In surf to 0.5 m
 - In flatwater
- Manage a group of novice paddlers in moderate conditions at sea
- Manage multiple capsizes and emergencies of novice paddlers
- Manage group packing
- Manage tows of novice paddles in moderate conditions at sea

Theory Component

- Complete a written assessment
- Complete an assessment project
